A Quick Guide to new health coverage options

Unique Benefits for Eligible American Indians

Covered California is the online marketplace that makes it simple to purchase affordable, high-quality health insurance and offers financial assistance to help reduce costs for people who qualify. Through Covered California, eligible American Indians can enroll in health coverage and have access to unique benefits.

NO HEALTH CARE EXPENSES FOR CERTAIN INCOME LEVELS

American Indians, *who are members of a federally recognized Tribe* and have a household income under 300% of the Federal Poverty Level (FPL), will not have cost sharing (co-pays or deductible). For example, a household of four qualified American Indians with a yearly income of less than \$70,650, will not pay co-pays or deductibles when attaining coverage through Covered California.

NO HEALTH CARE COSTS FOR MEDICAL CARE PROVIDED BY INDIAN HEALTH PROGRAMS

There is no cost sharing (co-pays or deductibles) for American Indians, *who are members of a federally recognized Tribe*, for any item or service received from an Indian Health Program including Tribal and Urban Indian clinics, regardless of household income.

ENTITLED TO MONTHLY ENROLLMENT PERIODS

Through Covered California, American Indians, *who are members of a federally recognized Tribe*, are entitled to enroll in or change plans once a month. All other taxpayers are subject to the annual open enrollment period.

NO REQUIREMENT TO HAVE COVERAGE

American Indians, *who are members of a federally recognized Tribe and/or are eligible to receive services through an Indian Health Program*, are exempt from the individual mandate to maintain health care coverage. Qualified American Indians can claim an exemption from the shared responsibility payment through the tax filing process or the exemption application via the federal Health Insurance Marketplace.
