

RPMS Clinical Reporting System (BGP) v16.1 Release Announcement March 2016

The Indian Health Service Office of Information Technology and the Clinical Reporting System (CRS) announce the following application release:

- Clinical Reporting System (CRS), Version 16.1, (RPMS namespace: BGP)
- This version/patch is not needed for EHR certification and/or Meaningful Use (MU).

A release notice from the IHS Office of Information Technology has been sent to all RPMS site managers, and site managers are advised to notify users once the application has been installed. Complete details of the modifications included in this release are included in the official release notice.

Thank you to our beta test sites, Choctaw Nation Health Services, Warm Springs Health and Wellness Center, American Indian Health & Services, and California District Area Office, for their assistance with this release.

Overview of Changes

1. Logic changes to several National GPRA and GPRA Developmental measures.
2. Logic changes to several non-GPRA measures.

Additional Information

For more information about the RPMS CRS applications please visit the CRS website: <http://www.ihs.gov/crs/software/fy16/>
