**ICD-10** = Content to be determined by users. Could be training on ICD codes for coders, billers or providers. This could also be billing and collections related issues associated with ICD-10 coding. Additionally, could be reporting requirements as associated with ICD-10.

**GPRA** = Content to be determined by users. This could include discussion of best practices for data collection, troubleshooting report results, and data collection methods.

**Fee Schedule** = Content to include generally accepted methods to evaluate fee schedules and methods to update practice management software.

**PPS Review** = Content to include analysis of Geographic Adjustment Factor, base rate and prior year outcomes.

**A/R Management** – Content to include balancing efforts and reporting.  
 One-on-One Coaching for these and other topics remains available on request.

**Schedule is subject to change to accommodate meeting requirements for MMPC, TTAG, Partnership, NBOC and NCUIH.**
