

Patient Health and Wellness Toolkit

For New Patients

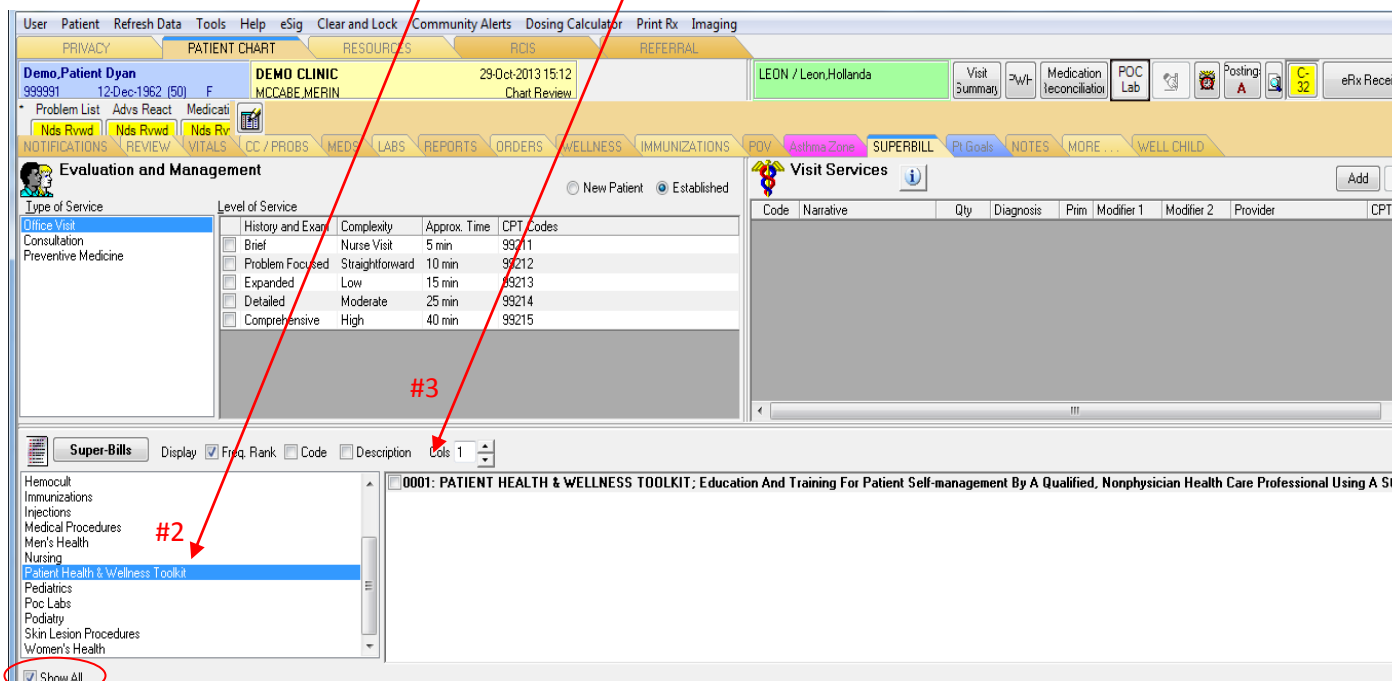

Front Office

- If there is a new patient give them the Patient Health & Wellness Toolkit (English and Spanish is available). **If they are a family, give the toolkits to the adults**
- Go through the document and show them the various resources
- Tell them to keep any documents that their provider gives them in the toolkit
- Tell them that if they go to see a specialist or if they go to the ER it is important to bring the toolkit with them so that the outside providers can have an up-to-date record of their health history and medication
- Tell them to keep their pill bottles (prescription meds and over the counter meds) in the toolkit when they come to AIHS so the provider can see what they are taking
- After going through the entire Toolkit, please document in EHR **(this is only possible if the patient has been checked in)**

Step 1: Go to the "Super Bill" Tab

Step 2: Click the box that says "Show All" and then choose "Patient Health and Wellness Toolkit". Go to the right and click the checkbox in front of "0001: PATIENT HEALTH & WELLNESS TOOLKIT; Education and Training for Patient Self-management..."

#1

Step 3: After clicking the “0001: PATIENT HEALTH & WELLNESS TOOLKIT” box, you will be prompted to fill in a series of Patient Education Prompts. These prompts pertain to each of the topics discussed in the Toolkit. Choose the Comprehension Level (Poor, Fair, Good, Refused). Choose the length of time spent on each topic. 1 minute is the minimum amount of time. Then press add. Continue through the prompts until the Patient Education Event is complete.

98960: EDUCATION AND TRAINING FOR PATIENT SELF-MANAGEMENT BY A QUALIFIED, NONPHYSICIAN HEALTH CARE PROFESSIONAL USING A STANDARDIZED CURRICULUM (CAREGIVER/FAMILY) EACH 30 MINUTES: INDIVIDUAL PATIENT

MAs

- Encourage patients to bring their toolkits
- If patient did not bring their toolkit tell them the importance of it, and what it is needed for:
 - to keep any documents that their provider gives them in the toolkit
 - if they go to see a specialist or if they go to the ER it is important to bring the toolkit with them so that the outside providers can have an up-to-date record of their health history and medication
 - to keep their pill bottles (prescription meds and over the counter meds) in the toolkit when they come to AIHS so the provider can see what they are taking

Providers

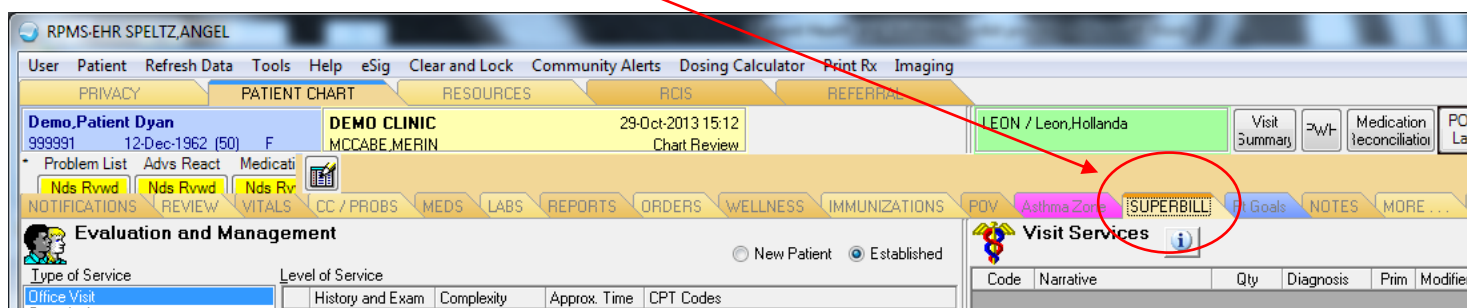

- Encourage patients to bring their toolkits
- Reemphasize what Front Office and the MAs explained to patients
 - to keep any documents that their provider gives them in the toolkit
 - if they go to see a specialist or if they go to the ER it is important to bring the toolkit with them so that the outside providers can have an up-to-date record of their health history and medication
 - keep their pill bottles (prescription meds and over the counter meds) in the toolkit when they come to AIHS so the provider can see what they are taking
- Tell patients to keep their Patient Wellness Handouts and other self management tools in the toolkit

For Established Patients who do not have the tool kit

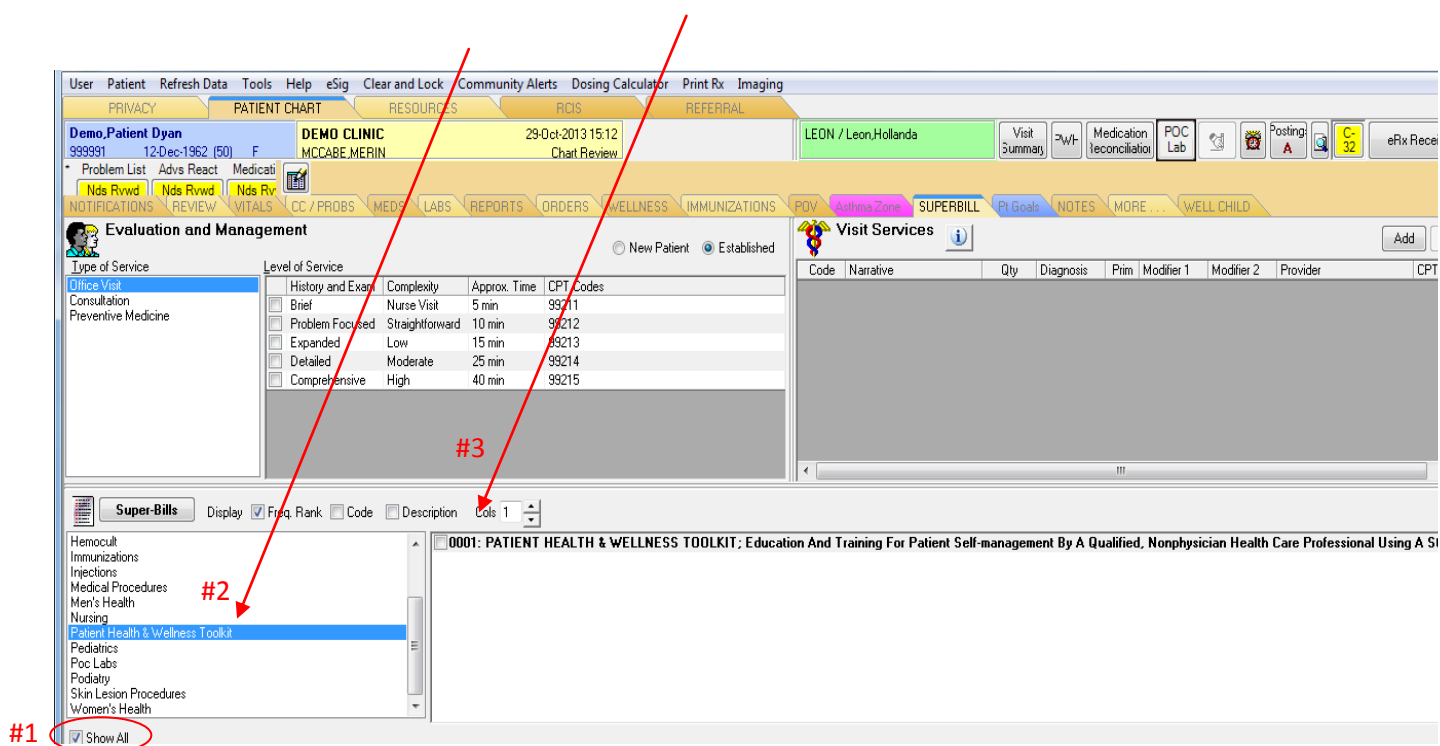

MA's

- When rooming patient give them the toolkit (English and Spanish is available). **If they are a family, give the toolkits to the adults**
- Go through the document and show them the various resources
- Tell them to keep any documents that their provider gives them in the toolkit
- Tell them that if they go to see a specialist or if they go to the ER it is important to bring the toolkit with them so that the outside providers can have an up-to-date record of their health history and medication
- Tell them to keep their pill bottles (prescription meds and over the counter meds) in the toolkit when they come to AIHS so the provider can see what they are taking
- After going through the entire Toolkit, please document in EHR **(this is only possible if the patient has been checked in)**

Step 1: Go to the "Super Bill" Tab

Step 2: Click the box that says "Show All" and then choose "Patient Health and Wellness Toolkit". Go to the right and click the checkbox in front of "0001: PATIENT HEALTH & WELLNESS TOOLKIT; Education and Training for Patient Self-management..."

Step 3: After clicking the “0001: PATIENT HEALTH & WELLNESS TOOLKIT” box, you will be prompted to fill in a series of Patient Education Prompts. These prompts pertain to each of the topics discussed in the Toolkit. Choose the Comprehension Level (Poor, Fair, Good, Refused).
