

Fear of the
Hepatitis-C Virus (HCV)
impacts generations
of **Native American**
families.

Let's Get Real

Spending **time** with your **Elders**
is **NOT** a way to contract **HCV**

People with
HCV can cook
and prepare food
for you.

People with
HCV can look
after your
children.

People with
HCV can
participate
in cultural
events.

Together we can fight stigma.
