

WE CAN

Let's break down the stigma of
Medication-Assisted Treatment.

BREAK

Our community is stronger
when we stand together.

THE CYCLE

Medication-Assisted Treatment Works

Opioid overdose deaths decreased
by 59% with Methadone
and decreased
by 38% with Buprenorphine.

*USU, Reducing Stigma Toward
Medication-Assisted Treatment*

*Talk to your Urban Indian
Healthcare provider about
cultural and community-based
Medication Assisted Treatment
options today.*

***We know it can be
hard to ask for help.***

***But we want
you here in our
circle of healing.***

***You belong in our
community.***
